

Banner Frames

Free Standing Banner Frame

Wall Mounted Banner Frame

Free Standing Banner Frame

Our high quality, durable A-frame, made from box section aluminium tube, is suitable for both internal and external use and can be custom built to your specific requirements.

With reinforced push fit joints, this smart frame not only looks good but is simple to assemble. The centre joints are reinforced with steel to prevent any sagging in the frame and heavy duty pegs are supplied to keep your frame firmly in place on soft surfaces. The frame comes with a carry bag for ease of transportation and storage.

A free standing banner frame offers the flexibility to display banners on one or both sides of the frame, increasing exposure and providing a cost effective display solution.

Wall Mounted Banner Frame

Many buildings and walls present an excellent opportunity to display advertising messages and corporate signage. Wall mounted banner frames provide an ideal solution, offering a robust and smart framework from which to display fully inter-changeable banners.

The frames are constructed from box section aluminium tube with plastic joints and steel wall brackets. Available in standard sizes from 1m x 2m up to 1m x 5m, bespoke frame sizes are available on request.
