Stretched Canvas Print

Stretched Canvas Print

Canvas Print

A Canvas Print can transform any image into a piece of artwork and have a dramatic effect on the look and feel of any space.

Whether you are creating a new reception or board room for your business, re designing a shop or showroom interior or defining an ambience for a bar or restaurant, canvas prints are a simple yet high quality accessory.

Corporate images, product pictures or carefully designed or selected images are digitally printed on to 260gm, fine art digital canvas and mounted on to wooden stretched frames. The canvas has a matt finish, is waterproof and easy to maintain. Using high quality canvas and high resolution digital print ensures that colours are vibrant and images sharp and focused.

Prints can be ordered in a variety of sizes, from A4 up to A1, portrait or landscape orientation and are finished with a gallery wrap edging.

All artwork, printing and mounting is carried out in house by our experienced and skilled designers, printers and fitters to ensure that your completed piece of artwork is delivered as specified, on time and provides the desired effect for your environment, business or leisure.

Benefits

- Bespoke** Use your own images to produce artwork unique to you
- Durable** Simple to maintain
