

Promotional Displays

Folding pop up banner

Carry Case

Folding Popup Banner

A lightweight, simple display, suitable for internal or external use that can be installed in seconds.

The 100 x 215 cm banner is fitted with a flexible fibre rod that keeps the banner taut, yet the entire display can be folded flat to half its size to be stowed away in an accompanying carry case. The case also serves as a base for the banner display, providing a stable platform that can also be secured to soft ground with pegs, supplied with the display.

Ideal for sports or product launch events, promotional campaigns or advertising sponsor messages, inside or out, the double sided structure provides maximum visibility for your branding or promotional messages.

The digitally printed polyester panels can incorporate full photographic images and logos for maximum impact of your brand, promotion or event. Artwork can be supplied or you can work with our design team to create stunning images that best reflect your brand or event.

Benefits

- Practical** Portable and assembled in seconds
- Lightweight** Easily transported
- Effective** Double sided
- Cost Effective** Use inside or out, suitable for any event
