

Vehicle Graphics Case Study

**HOUSE
of FLAGS**

Customer:
Greenways Eggs

Products Installed:
Vehicle graphics on two lorries

Number of Installers:
1 person over 5 days

House of Flags' vehicle graphics team applied vinyl graphics to two lorries for Greenways Eggs. It took five days in total to apply graphics onto two lorries. We used a mixture of printed vinyls and cut vinyls.

Starting with plain lorries, we applied graphics to the front, back and sides of each lorry. Including applying large areas of graphics along the sides of the lorries.

We provided a full vehicle graphics service, including designing the graphics to meet the client's brief, and professionally applying all of the graphics.
